

Learn To Fly It Right

Private drone lessons from a pilot with 5+ years in the air — from your first hover to your FAA Part 107 checkride, and everything FPV in between.

Part 107 Exam Prep

Airspace, weather, regulations, and test-day strategy — enough to walk in ready and pass.

Hands-On Flight Fundamentals

Takeoff, hover, manual control, and safe landings, taught on real commercial hardware, not a toy.

FPV Flight Coaching

Goggles, acro basics, and the jump from simulator to real air, for pilots ready to go manual.

One-on-One, On Your Schedule

Solo lessons or small groups, paced to you. Bring your own drone, or fly one of ours.

5+ Years Flying Experience

FAA Part 107 · Licensed & Insured

Mini 5 Pro · Avata 2 · Neo 2
